

DAILY  
PUBLIC LEDGER  
MAYSVILLE REPUBLICAN

WEEKLY REPUBLICAN—1867.  
DAILY PUBLIC LEDGER—1892.

MAYSVILLE, KY., WEDNESDAY, APRIL 18, 1906.

ONE COPY—ONE CENT.

IT PAYS!  
Merchant wasn't  
Very wise;  
Swore he wouldn't  
Advertise.  
Tried his system  
For a year.  
Earned a hundred  
\$50 clear.  
Then the merchant  
Got so mad  
Put the hundred  
In an "ad."  
Ad brought so much  
Custom in  
That the merchant  
Had to grin.  
Since then daily  
Loud he cries  
"Gee, it pays to  
Advertise!"  
—Philadelphia Bulletin.

## SIX PAGES TODAY

The flour that pleases is "Alpha."

The L. and N. paycar came in last night.

Fresh Fish daily at Restaurant Royal.

Call and let me show what a handsome Diamond Ring, Stud or Pendant I can sell you for little money. Prices are guaranteed lower than you buy for anywhere.

P. J. MURPHY, the Jeweler.

Coroner George W. Orr yesterday received a circular from Sharpsburg, Pa., offering \$100 reward for the recovery of the body of Ellis W. Crow, who was drowned at Pittsburgh last Thursday. He was Physical Director of the Sharpsburg and Etna Y. M. C. A.

Mrs. Elizabeth Redman Shawan died at Cynthiana, aged 86.

With Robinson's big circus and a Street Carnival coming in the month May the old town will be full of life and gaiety for a week at least.

### FILED WRONG SUIT!

Good One On a Nameless Member of the Mason Bar

THE LEDGER for news;

At least Mr. and Mrs. Judiah Hughes are prepared to swear to it.

Yesterday's paper recited the fact that Mrs. Abbie Hughes had filed suit for divorce from her hubby, Judiah.

It was such a thrilling bit of information to Judiah that he hurried home and told Abbie about it.

And then Abbie said it was a no-such-a-thing.

It appears that Mr. Hughes is "one of the boys" who, when he goes out for a good time, is likely to have a private sale of the household furniture.

And for fear he might do so some more, Mrs. Hughes employed a lawyer to sue out a restraining order to prevent it.

Instead, however, the lawyer filed a petition for divorce!

When this was discovered Mrs. Hughes went scurrying after Sheriff Mackey to prevent service of the papers.

And the kind-hearted High Sheriff sent the little woman away happy, assured that she could keep both her husband and the other furniture.

The U. S. P. Sarsaparilla for your blood. 50c. Sallie Wood's Drugstore.

Dr. E. H. Rutherford Sunday celebrated the twenty-fifth anniversary of his Pastorate of the Second Presbyterian Church at Paris.

In the wreck of fast mail train No. 7 on the L. and N. near Verona, twenty-six miles from Covington, Monday afternoon, John Grady, Engineer, of Louisville, was killed and Fireman H. E. Dunaway of Covington and Express Messenger Douglas W. Ort of Bellevue, formerly of this city, were injured. The mishap was caused by the spreading of the rails, the engine, mail, baggage and express cars leaving the track, the former plunging down a twenty-foot embankment. Mr. Ort was severely injured by heavy boxes and other articles of merchandise falling upon him in his car, but his injuries are not considered dangerous.

Now is the time to take Hollister's Rocky Mountain Tea. It cleans your system of all impurities. A wonderful spring tonic. A family benefactor. 35 cents, Tea or Tablets. J. Jas. Wood & Son.

Ray's Ready Mixed Paint is guaranteed the best and cheapest on the market.

Mr. C. S. Calvert sustained a very severe injury at his home near Mt. Gilead a few days ago. He was engaged in putting a telephone in his residence, and was stretching the wire, when it suddenly broke, striking him in the face. The sight of one eye was destroyed and the other was seriously injured.

The Supreme Court of the United States recently decided the mountain lawsuit, embracing over 12,000 acres, in favor of G. W. Bramblett of Nicholas county. These contentions have gone through all the state and United States Courts during the last seventeen years. Mr. Bramblett has been successful at every trial, and gets judgment for all his costs expended.

BUY  
Drygoods, Furniture, Jewelry, Clothing, Groceries, Shoes and Crockery from the stores that give Globe Stamps.  
GLOBE STAMP CO.

## It's Not So Much What You Save, But How You Save It, That Counts!

You could probably save a dollar tomorrow by going without your meals, but it wouldn't be economy.  
The water you use will not cost you a cent if you will only go down to the river and carry it home.  
You can, maybe, get some kind of artificial light for less money than Electric Light or Gas.  
Yard slack is cheaper per bushel than clean lump coal, and some people may(?) be able to figure that they could use either cheaper than they could Cook with Gas, i. e., cost of coal alone against amount of Gas bill.  
But, really, why deprive yourself and household of these valuable modern conveniences when they are right at your door, in fact, in your house and ready to use at a moderate and reasonable price? Drop in at our office, 211 Court street, or call us up, 'Phone 199, and let our representative call on you and explain our interesting proposition.  
We will insist upon the service rendered you being satisfactory.

MAYSVILLE GAS COMPANY.

## Patton's Sun-proof PAINT.

It is a ready-mixed, strictly Pure Paint, covers 330 feet of surface two coats to the gallon. A Five-Year Written Guarantee goes with each gallon. Send for color card.

H. H. COLLINS LUMBER... COMPANY

'PHONE 99

THE HOME STORE. D. HECHINGER & CO. THE HOME STORE.

### THE TRADE

We have enjoyed in the past two weeks is not only convincing to us, but also to quite a lot of people who were kept patiently waiting to be fitted out, that our continued efforts to buy merchandise that is distinctive in character from the ordinary are richly rewarded. We are daily receiving fresh invoices of the newest things offered in Spring Suits, Top Coats and Cravenettes. You that are particular as to your wearing apparel do yourselves injustice if you do not look at our goods when ready to buy your spring outfit. Our Shoe, Hat, Shirt and Neckwear Departments are in full keeping with our Clothing.

THE HOME STORE. D. HECHINGER & CO.

Mrs. Sue Elizabeth Jaynes, well known in this county, died Sunday at her home at Millersburg, aged 54.

THEY HAVE COME! FOR SALE!  
Onion Sets, Seed Oats, Sorghum Seed, White Lime and Seed Potatoes. M. C. RUSSELL CO.

Baris Baptists are to erect a handsome new Church.

Mrs. E. S. Edgington, late of this city, is now residing at Lexington.

Charles Holliday, one of the most prominent Lodge men of Paducah, is dead.

Miss Davis's Silver Soap at Miss Amelia Wood's room, Court street.

Mrs. Margaret Schwartz was in Lexington a day or so ago to attend a meeting of the Board of Trustees of the Oddfellows Widows and Orphans Home.

Slop for sale at Limestone Distillery on and after March 22d.

Miss Lena B. Fristoe, daughter of Mr. S. F. Fristoe, formerly of this county, was married at Covington a few days ago to Mr. Everett Walsh of Hamilton, O.

## BARGAINS

The Approach of Warm Weather Will Make These Appreciated; the prices will make them doubly attractive.

36 in. White Irish Linen, 30c Value . . 22½c

36 in. White Irish Linen, 45c Value . . 29c

36 in. White Irish Linen, 50c Value . . 32c

The demand for these goods for shirtwaist suits is unprecedented.

We Have Also Three Lots of White Persian Lawn Which We Offer at 12½c, 15c, 19c Yd.

You must see them. Only in a bona fide closing-out sale can such values be offered.

J. M. NESBITT, Executor

Good old summer time is a little slow in making its appearance, but it will get here after while, and thank the Lord for it.

At Limeville Thomas McNeal, aged 20, shot and instantly killed his wife, Ella, aged 18, shot at and missed his mother-in-law, and then went to the woods and unfortunately only slightly wounded himself.

While traveling in California Mr. and Mrs. Robert N. Fryer met a former "Man from Mayville," Colonel J. Mat. Long. Mat. says getting rich in California beats selling sox and serving in the Maysville City Council all hollow.

The Hon. Joseph C. Lykins, a leading lawyer of Wolfe county and Special Deputy Great Sachem of Kentucky Redmen, was in the city yesterday en route for a visit to the Tribe at Sardis. Mr. Lykins is a royal gentleman, an old Confederate soldier and one of Campton's best citizens.

Mary Louise Bryant, formerly of Bourbon county, who has run the route of sin, Monday set fire to her clothing in her cell in the City Jail at Denver, Col. The Jailer was attracted by the cries of other female prisoners, and rushing to her cell succeeded in extinguishing the flames before she was seriously burned.

In the Circuit Court at Frankfort Monday Judge Stout sustained a demurrer to the petition in the injunction sued out by Captain Horace J. Cochran of this city against Governor Beckham to compel him to certify claims of the Taylor militia on duty at the Statehouse, holding the State Buildings, pending the Taylor-Goebel contest. An appeal to the Court of Appeals was prayed.

Mr. Archie Lewis of the West End, the right hand man of Mr. Hal C. Curran at the Standard Oil plant, has been ill some days with the grip.

It is not an every day occurrence, but it is said Mr. John Coughlin, the dairyman, is doing the best he can in freeing himself from a well defined case of mumps.

The Federal Court at Covington has been well represented by members of the Mason Bar this week, and it's a sure shot they sized up with the best of the legal lights in attendance.

### NICE PILLOW

People Who Use the Railway Cross-ties When They Snooze

The reckless manner in which people disport themselves in using the ends of ties on the roadbeds of railroads as settees while they drink in the perspective view of the beautiful landscape, or as was the case of a colored man yesterday morning who had selected a nice soft spot at the foot of Sutton street and laid himself down to rest his weary frame and enjoy a siesta.

He was utilizing the tie for a pillow, seemingly careless and unconcerned, notwithstanding his head was not more than three inches from the rail.

If perchance he had in any manner been injured, it is reasonably certain that the first thought of his friends would have been framing up a suit against the C. and O. for damages.

## WASHED FIGS

Packed in airtight glass jars. These are extra fine and keep nicely during the summer months.

We offer you a pitted Queen Olive stuffed with Jordan almonds. This is a novelty and the nicest olive you ever tasted.

TELEPHONE No. 43. G. W. GEISEL, OPPOSITE OPERA-HOUSE.

## In Floor Coverings!

We've a glorious past to eclipse and present leadership to maintain—this stock will do both. It's too large for detail, these items are merely hints, don't be content to read—see and be convinced.

**MATTINGS.** An ideal floor covering. Closely woven and easily kept clean. Many attractive designs in carpet patterns. 15c to 50c Yard.

**LINOLEUMS.** Tile and carpet designs. Bright colors easily cleaned. Two and four yards wide. 50c, 75c Yard.

**HEARTH RUGS.** Very attractive in Oriental, floral and conventional patterns. Velvet, Moquette and high-grade Smyrna. \$1.25 to \$6½.

**CARPETS.** All grades between wool mixed Ingrains at 25c Yard to Wilton Velvets at \$1½. Designs, even in lower grade Carpets, were selected with exacting care. If you want the newest patterns and best quality for price you'll find it here.

D. HUNT & SON.

Mrs. Ezekiel Lawrence, aged 22, died of consumption Sunday at Paris and her remains were interred yesterday at Elizaville.

Down at Bellevue, Elmore Stevens, aged 18, was fined \$100 and sentenced to fifty days in Jail for trying to board moving C. and O. trains.

Cartmell extracts teeth without pain.

Mrs. G. J. Thomas, formerly Miss Elizabeth Hall of this city, was the hostess at an elegant card party at her home at Atlanta, Ga., recently given in honor of Mrs. Vertner Mitchell of Winchester.

Mr. Joseph F. Martin, so long connected with the furniture business in this city, is taking a vacation.

President Roosevelt Monday sent to the Senate the nomination of W. H. Harrison as Postmaster at Flemingsburg.

New Sample Piano, \$199.99 at Gerbrich's. The cabin in which Lincoln was born will be taken to Louisville to be exhibited to the Home-Coming guests in June before being taken to Larue county to be placed in the proposed National Park.

## The Rush Is On!

Our store is crowded from morning until night. THE RIGHT STYLES ARE HERE. THE LARGEST ASSORTMENTS. THE LOWEST PRICES.

ANOTHER LOT OF NEW GINGHAMS. Choice 10c.

LADIES' SUMMER UNDERWEAR—5c up to 50c. Extra good values at 10c, 15c and 25c. Now is the time to buy.

Half the good looks of a dress is in the Corset. R. & G., W. B. and Thompson's Glove Fitting.

## We Are Sure Of It

When it comes to

MATTINGS, CARPETS or RUGS.

We have sold more floor coverings in the last three weeks than all the other stores will sell the entire season. We absolutely guarantee that no store in the county can undersell us in Carpets with EQUAL QUALITY. You generally find us cheaper,

Notwithstanding

We Give Globe Stamps.

A few pieces of all-wool Lowell Carpets, one yard wide, \$5.9c. One-half wool Lowell 49c.

KINGS OF LOW PRICES. MERZ BROS. PROPS. BEE HIVE.

Six Months.....1.50  
Three Months......75

## DELIVERED BY CARRIER.

Per Month.....25 Cents  
Payable to Collector at end of Month.

SPRINGFIELD, Mo., is a promising field for Missionary work. No more "heathenish" community can be found in "darkest Asia."

We get about so equal a taste of Heaven and Hell on this earth that we won't feel much like a stranger whatever our fate in the hereafter.

THE Kentucky Society, recently organized at Los Angeles, Cal., is the largest of any State Society in that city, having over 600 members. There are several Maysvillians among the eligibles.

A RESOLUTION providing for the election of Senators by direct vote of the people has been favorably acted upon by the House Committee on Election of President, Vice-President and Representatives in Congress. The resolution, which was introduced by Mr. MORRIS of Nebraska, makes the term of members of the House four years instead of two. Both propositions are to be accomplished by amendments to the Constitution.

INSTRUCTIONS to United Mine Workers from President MITCHELL not to indulge in unlawful disturbances was transmitted to them at a number of meetings of locals in the Shamokin District. Additional guards were posted at numerous collieries. If the miners are the law-abiding people Mr. MITCHELL would have the public believe, it looks like there ought to be no necessity for requesting them to refrain from riotous demonstrations.

## STREET PAVING ORDINANCE.

Continued from Third Page.

who shall be liable for the safekeeping thereof on his official bond.

Said bonds shall not be issued upon the faith and credit of the City of Maysville for the payment thereof, but the faith and credit of the City of Maysville shall be pledged for the sums realized upon the apportionment against the property for the cost of the paving and curbing said streets as in this ordinance provided, only after the same shall have been collected and paid to the Treasurer, as in this ordinance provided; and said bonds shall be redeemable and payable not on the faith and credit of the city, but out of, and secured by, lien on the assessments to be made and apportioned against said lots and parts of lots or lands abutting on the streets and parts of the streets so herein ordered to be paved and curbed. All money paid, received or collected upon the assessments against the lots, as in this ordinance provided to be made, and interest on the deferred annual payments, as provided in said section No. 5 of said act, approved March 24, 1894, and all money arising from the sale of bonds herein provided for shall be kept by the City Treasurer in a separate fund to be known as the Street Improvement Fund; and said bonds shall be paid out of the amount realized upon said assessments to be made and apportioned upon the said properties abutting upon said streets and parts of streets as above, and said assessments secured, paid and collected as provided for in like cases in Section 5 of Act of the General Assembly of the Commonwealth of Kentucky, entitled "An Act to Amend an Act for the Government of Cities of the Fourth Class; approved June 28, 1893," and approved March 24, 1894, and being Sections 3575 and 3576 of the Kentucky Statutes.

Section 7. All moneys received from the assessments in this ordinance provided to be made, shall be appropriated and paid out upon the order of the Board of Council upon the City Treasurer, and for the payment of the interest and redemption of the bonds which may be issued for the payments herein provided for and for no other purpose.

Section 8. The cost of said improvements, assessed against any piece of ground or owner thereof, shall not exceed one-half of the value of such ground after improvements are made, excluding the value of all buildings and other improvements upon the property so improved.

Section 9. Said bonds shall be in substance, form and effect as follows, except as to the consecutive number to cover said fractional part of \$500 provided for in Section 4, of this ordinance, and the date of maturity of the three sets of bonds, the said three sets of bonds to mature as hereinbefore provided.

It was urged by the hightaxers in the Legislature that the new Revenue Law was needed to raise money for the new Capitol Building; but it has already proven a boomerang, for it is driving productive industries out of the state.

WHEN a citizen sends matter by mail he is charged according to the weight of the package. Newspapers pay according to actual weight of each shipment. But when the Government pays there is a "system of averages," one month's weighing with payments for four years based on that average. There is nothing like it in all business, yet under it the Government pays the railroads \$40,000,000 annually.

MAXIM GORKY, the Russian revolutionist, signalized his fourth day in America by the sending of a telegram of sympathy to W. D. HAYWOOD and CHARLES MOYER, of the Western Federation of Miners, in Jail at Caldwell, Idaho, on the charge of conspiracy to murder ex-Governor STUENENBERG—

"W. D. Haywood and Charles Moyer, County Jail, Caldwell, Idaho: Greetings to you, my brother Socialists. Courage. The day of justice and deliverance for the oppressed of all the world is at hand. Ever fraternally yours,

MAXIM GORKY."

Mr. GORKY may do well to remember that he is not now in Russia.

FOND MEMORIES.

## Success Magazine.

A hard-hearted old Pittsburgh manufacturer, who made his fortune, as he expresses it, "with his coat off," was induced by his daughters to accompany them to a Wagner concert, the first he had ever attended. The next day he happened to meet an acquaintance who had seen him the night before, who asked:

"I suppose you enjoyed the concert last night, Mr. Brown?"

"Yes; it took me back to the days of my youth," the old man said, with a reminiscent sigh.

"Ah," summer days in the country, girl in a lawn dress, birds singing, and all that?"

"No, the days when I worked in a boiler shop in Scranton."

and curbing of said streets and parts of streets, as in this ordinance provided, and in accordance with the specifications adopted by this board, and they shall adopt such means of advertising as in their judgment shall be productive of the greatest benefit and procure the largest number of bids, the said bids to be sealed, endorsed Street Paving Bids, and directed to the City Clerk, who shall keep them and open them in the presence of the City Council. Each bidder shall accompany his bid with a certified check on a National Bank, payable to the order of the City Treasurer for Five Hundred (\$500.00) Dollars which amount will be returned in case of a rejection of said bid, and to the successful bidder, upon acceptance of his bid and formal execution of contract, the City to reserve the right to reject any and all bids.

Section 10. All ordinances and parts of ordinances in conflict herewith are hereby repealed.

Section 11. This ordinance shall be in full force and effect from and after its adoption and publication in the manner provided by law.

**Vinol** is fast superseding old-fashioned cod liver oil and emulsions because, without a drop of oil or disagreeable feature, it contains all the medicinal elements of cod liver oil, actually taken from fresh cods' livers. By our process the oil, having no value either as a medicine or food, is separated from the medicinal elements and thrown away. Unlike old-fashioned cod liver oil and emulsions, Vinol is deliciously palatable, agreeable to the weakest stomach, and therefore unequalled as a body builder and strength creator for old people, puny children, weak, run-down men and women, after sickness, and for all pulmonary diseases. Everything Vinol contains is named on the label.

**OUR GUARANTEE**—We have such faith in VINOL that if you will take it we promise if it does not benefit or cure you we will return you your money without question. We take all the risk.

**JOHN C. PECOR,**  
DRUGGIST,  
MAYSVILLE, KY.

Corn Slop for sale at Poynts Distillery.

Mr. Charles Conard, the urbane clerk at Cabell's, has moved into the dwelling adjoining Mrs. Gunn in East Second street.

Section hands have been engaged the past several days in placing the C. and O. track in front of the city in better condition. It was none too soon, either.

Reports from Miss Della Given, who went to California some months ago for the benefit of her health, are not very encouraging.

Mrs. Agnes Blaisdell, who for many years has resided in Covington, returned last evening and will take up her permanent residence in the d home in West Fourth street.

Miss Katharine Schroeder has accepted a position at Gerbrich's piano store.

Mr. Percie Austin, an employee of the Globe-Wernicke Co., Norwood, O., met with a painful accident Monday afternoon. Three fingers of the right hand were badly mangled by a rip-saw, and it is thought one will have to be amputated.

Mr. Louis Brookover, a well-to-do farmer who resides back of Aberdeen, left home last Thursday, saying he was going to Cincinnati on business, taking with him a sum of money. Up to this morning nothing had been heard of him, and his family think he has met with misfortune, as he promised to return Sunday.

## Advertised Letters

Below is a list of letters remaining uncalled for at the Maysville (Ky.) Postoffice for the week ending April 18th, 1906:

Barnett, Charley  
Bryerly, Mrs. Mollie  
Beal, Mae  
Crown, B. W.  
Goodwin, Earl  
House, S. L.  
Haley, Mrs. Urb.  
Judy, G. D.  
La Fleur, Joseph A.  
Laudine, Miss Lillie  
McDonald Lbr. Co.,  
Martin, Jos. W.  
O'Doherty, Mrs. Schridla  
Payne, James  
Page, Gee  
Rule, Miss Minnie W.  
Smith, Will  
Thomas, Miss Laura  
Wallingford, Miss H.

One cent due on each of above.  
Persons calling for these letters will please say that they are advertised.

CLARENCE MATHEWS, Postmaster.

## THIRTY DAYS DELAY

Action of the Supreme Court in the Caleb Powers Case

The Supreme Court has granted a stay of mandate for thirty days in the case of Caleb Powers. This is to give the Attorneys for Powers time to prepare a petition for a rehearing in the Supreme Court on the question as to whether or not the Federal Court has jurisdiction to take the case out of the State Court and try it.

The Supreme Court's action is important, chiefly because it gives the defense the advantage of a delay. A play for time is now the object of the defense.

The prosecution cannot now railroad Powers back into the State Court and rush him through the form of a trial.

The defense desires time until it can be determined whether or not the bill prepared by John W. Langley and introduced by Representative Hughes is to become a law.

If it passes Powers may never be tried in the State Court, but its chances of its passing are considered very remote.

Kaiser Wilhelm is of medium height, but the German Empress is tall, and that is why the proud Kaiser will never consent to be photographed beside his wife, unless she sits while he stands.

Ten hours between Chicago and New York on trains operated by electricity and making an average speed of 75 miles an hour, is the plan of incorporators of the Chicago and New York Electric Airline Railroad.

## STOP, WOMAN!

AND CONSIDER THE  
ALL-IMPORTANT  
FACT

That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with women's diseases covers twenty-five years. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, and for many years under her direction, and since her decease, her advice has been freely given to sick women.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probable examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

## Mrs. Pinkham's Standing Invitation:

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.—Lydia E. Pinkham Medicine Co., Lynn, Mass.

Following we publish two letters from a woman who accepted this invitation. Note the result:

## First letter.

Dear Mrs. Pinkham:—  
"For eight years I have suffered something terrible every month. The pains are excruciating and I can hardly stand them. My doctor says I have a severe female trouble, and I must go through an operation if I want to get well. I do not want to submit to it if I can possibly help it. Please tell me what to do. I hope you can relieve me."—Mrs. Mary Dimmick, 96th and E. Capitol Streets, Washington, D. C.

## Second letter.

Dear Mrs. Pinkham:—  
"After following carefully your advice, and taking Lydia E. Pinkham's Vegetable Compound, I am very anxious to send you my testimonial, that others may know their value and what you have done for me."

"As you know, I wrote you that my doctor said I must have an operation or I could not live. I then wrote you, telling you my ailments. I followed your advice and am entirely well. I can walk miles without an ache or a pain, and I owe my life to you and to Lydia E. Pinkham's Vegetable Compound. I wish every suffering woman would read this testimonial and realize the value of writing to you and your remedy."—Mrs. Mary Dimmick, 96th and E. Capitol Streets, Washington, D. C.

When a medicine has been successful in restoring to health so many women whose testimony is so unquestionable, you cannot well say, without trying it, "I do not believe it will help me." If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice—it is free and always helpful.

## Dainty Foods Demand It

IN EVERY Receipt that calls for cream of tartar, soda, or baking powder, use the Royal Baking Powder. Better results will be obtained because of the absolute purity and great leavening strength of the Royal. It will make the food lighter, sweeter, of finer flavor, more digestible and wholesome. It is always reliable and uniform in its work.

Alum and phosphate baking powders—some of them sold at the same price and some of them cheaper—will make neither dainty nor wholesome food.

ROYAL BAKING POWDER CO., NEW YORK.

Last year's production of oranges in this country was 10,000,000 boxes, or probably 1,600,000,000 oranges.

The Easter festival, the anniversary of the Jewish massacre at Kishinef and other places in Russia, was not stained, so far as reported, by anti-Jewish excesses.

Because of published statements that the woman accompanying him is not his legal wife, Maxim Gorky was Saturday requested to vacate the Hotel Belleclaire in New York. Gorky complied with the request, and is now at the residence of H. Gaylord Wilshire. Gorky says he secured a divorce in Finland, and married Andreeva, the Russian actress accompanying him, before a Notary. Gorky has further distinguished himself by sending a telegram of sympathy to Moyer and Haywood, the men accused of complicity in the murder of former Governor Steunenberg of Idaho.

### THE UNSOPHISTICATED MAN

Thought to Have for Himself a Drawer in the Bureau, But All in Vain.

Once a wise man built a large house. He said:

"I will place in this house many bureaus. There shall be bureaus on all sides, in all the rooms. They shall be large, reaching from the floors to the ceilings, and in these bureaus there shall be hundreds and hundreds of drawers. Then I shall say to my wife: 'This one little bureau drawer down here in the left-hand corner of the cellar, under the stairway, is mine. All the rest of the bureau drawers, my dear, are yours.'"

And the house of the wise man was finished, and in it were one mile of bureaus, and in the bureaus there were

14,000 drawers, relates the Denver News. And it was late Saturday night when the last load of furniture was moved into the house and put in place.

Sunday morning this wise man arose with a light heart. He tiptoed to the little drawer down under the stairway in the cellar to get himself a clean shirt and a change of underwear. He paused and exclaimed:

"At last I have a private drawer!" He stooped and pulled the drawer and looked in.

There were veils, feathers, ruching, hairpins, red ribbons, blue ribbons, safety pins, petticoats, silk stockings, powder puffs, corset covers, trading stamps, chewing gum, shoestrings and other articles too numerous to mention.

The wise man dug out his stiff shirt, his underclothes and clean collar and carefully wrapped them in an old newspaper. He carried them to his room and shoved them under his bed.

Then he went out doors and meditated.

### GOVERNMENT PUBLICATIONS

Distribution of Official Volumes an Element Apart from Their Usefulness.

The printing law of 1895 (still in force) specified the edition and disposition of the principal annual publications of the government, writes W. S. Rossiter, in Atlantic. The total "number"—whether single volumes or sets of "parts"—authorized by this law was 982,600, afterwards increased to 1,115,600. Of this aggregate congress reserved for itself as quota 88 per cent.

The quota arose, and has flourished, principally for two reasons. Naturally enough, the voter rather likes to obtain something for nothing, and the receipt of expensive publications from the member of congress for the district involves an element of flattery, just as does the receipt of a package of agricultural department garden seeds from the same source. The books may not be of any practical value to the recipient, and the seeds may never grow, but the object of their dispatch has been secured. Thus there has grown up in connection with the distribution of official volumes an element totally apart from the usefulness of the publication or the appropriateness of its destination.

### RAILWAY MATTERS.

Big Four Route—New York Central Lines

Announce low rates for the following conventions:

Denver, Col., July 16th-21st—National Convention B. P. O. E.

Des Moines, Iowa, May 16th-29th—General Assembly Presbyterian Church.

Los Angeles, Cal., May 7th-10th—Imperial Council Nobles Mystic Shrine.

Mexico City, Mexico, April 25th to May 5th—Special excursions.

### By Reading This Space

Brings You to This Place.

All hail the coming of the glorious spring, when Nature is adorned in its most beautiful attire. We herewith take pleasure in inviting you to our store. For spring we are now ready for your approval when beautifying your homes with

### WALL PAPER and PAINTS

Not only Wallpaper and Paints, but in fact everything that pertains in a first class paint store, including Roofing and Building Paper. We guarantee the price of everything we sell to be as low or lower than the same article or pattern that can be bought anywhere in the city. Respectfully,

W. H. RYDER,

No. 121 Sutton Street, MAYSVILLE, KY.

### National Occupations of People with Time to Spare in Various Places.

Parrots and minas afford a never failing source of occupation to those gifted with sufficient patience to undertake the task of teaching these birds to speak. A favorite method with bird trainers is to lower the cage down a well, and, seated on the edge of the coping, to pour forth for a couple of hours nightly a monotonous repetition of "Pretty Polly," etc. Others seek the seclusion of a dark room for the same purpose.

Various places lend themselves to particular hobbies. In the Andaman Islands mother of pearl is plentiful, and everybody goes in either for polishing shells or making rings and bracelets from them.

Gibraltar has its staple hobby in rock ornaments made from a beautifully veined stone which abounds, is easily worked and takes a high polish. This is a very profitable hobby, as brooches, crosses, paper weights, Bible and prayer-book markers and other knickknacks find a ready sale among tourists.

In Burma, the land of teak, the carving of elaborately decorated photo frames enables many a man to while away hours that would otherwise be dreary. And at Bhamo pleasure may be combined with profit in fashioning ornaments of serpentine.

In India soldiers recovering from serious illness are usually sent to hill stations to complete their cure, and can find plenty of wood to whittle into walking sticks. For one of these sticks which the writer has an offer of £2 10s. was made. Its actual value as a stick might be about one shilling, but it is covered with most elaborate carvings of birds and flowers, and represents four months' work.

France's Young Cabinet. Though not perhaps quite so young as the cabinet of Mr. Balfour in England, which was, in this respect, a striking departure from tradition, the new ministry formed in France by M. Sarrien cannot be considered old. The premier, M. Sarrien, is himself its "patriarch," and he is only 66. M. Clemenceau comes next in order with 65, and he is followed by M. Etienne, the war minister, who is 62. Then comes the men in their fifties, M. Thomson and M. Bourgeois. None of the rest are yet out of their forties. Of these M. Ruau is the youngest. He is only 41.

Unacquainted with Chickens. "That chicken you sent me for yesterday's dinner was very old," said the bride to the poultry man. "You are mistaken; it was a young chicken, madam," replied the dealer. "Don't tell me it was young! Why, it didn't have a single tooth in its mouth!"—Yonkers Statesman.

## Have You a Sweet Tooth?

The Glen Easton Coal Company, near Moundsville, W. Va., is erecting huts and kitchens for the use of new men. The strikers are growing more determined that their demands shall be recognized, and the result is a dangerous situation, that may precipitate grave trouble at any time. The Company is the first in the state to attempt to operate mines with non-Union men.

Which kind of hair do you have? The rich, heavy, young kind? Then you are happy. Or the thin, scraggly, old kind? Then use Thomas's Hair Tonic. The hair grows rapidly, stops coming out, cures dandruff and restores gray hair to a soft, natural color. Sold at MRS. ARCHDEACON'S MILLINERY STORE. 50c per Bottle

## Planting Season!

IS NOW AT HAND.

SEED POTATOES—My stock of Seed Potatoes is large and complete—all of the best and purest Northern grown, such as Early Rose, Early Ohio, Triumph, White Star and other varieties adapted to our soil and climate.

ONION SETS—White and Yellow. D. M. Ferry's Garden Seeds in bulk—by the ounce, pound and bushel—Peas, Beans, Lima Beans, Sugar Corn.

MELON SEEDS—Of all kinds and of the purest and best. So when you want the best come to me. Don't overlook my LENTEN SPECIALS; they are all snaps. The sales of my fine Blended Coffees are increasing daily because they are very much superior to any coffees sold in our city at higher prices, and always give satisfaction. My guarantee goes with every pound sold. And when you want the best bread and cakes try PERFECTION FLOUR; it has no equal in this market; it has no superior anywhere. My motto is sell only the best at fair prices; guarantee every article to be as recommended or money refunded. Try my Clover Hill Creamery Butter; it is far superior to any ever offered in this market.

New York has taken the first definite steps toward building the largest filtration plant in the world. The construction of the plant, and the necessary improvements that will follow, will cost the city about \$3,000,000. With a daily capacity of 400,000,000 gallons, the plant will stretch over approximately 150 acres of ground.

## WHO THEY ARE

### Something About the Wicked "Palajanes" in the Philippines

Though the Philippine census fails to disclose the number of "Palajanes" on the island of Samar, who are now being pursued by the Constabulary under the lead of Governor Curry, in retaliation for the attack on his party recently, it is estimated by officers in the War Department, who have been stationed on the island, that there are not to exceed 2,500 of these people in the mountain fastnesses. They are really only Visayans who have "gone wrong." They are people who were once under Spanish religious influence, but have retrograded into a state of barbarism; have taken to the mountains, and live in large part by preying on the toilers in the agricultural sections. Thus they are like the "Ladrones" in Luzon, and the brigand Moros.

The Spanish Government records mention them as "Tulians," which is said to be the vocal equivalent of the native word "Palajanes," while the Church denominates them "Remontados," which means a people that have once practiced Christianity and lived by honest labor, but have backslidden.

In the opinion of Army officers, it will be no easy task for Governor Curry to subdue these "Palajanes," because they are like the American Indians in the "bad lands," and are very much assisted by their women, who travel back and forth into the towns, bringing out supplies of rice and other necessities, despite the watchfulness of the American troops and native guards.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

## Take Up Deserted Farms

Technical World.

The New York, New Haven and Hartford is at present engaged in an interesting experiment, which, strictly speaking, is hardly such any longer, as its efforts have been crowned with success from the beginning. The road covers the lower half of New England with an astounding network of lines, and as a result of the opening of the richer lands of the West and South, the men who had been toiling on the impoverished New England farms, small and stony, forsook them, took their families and left New England.

The price of land declined until there came to be many farms that could be bought for \$1 an acre and at last a great number that were entirely abandoned. By reason of the road carrying to and fro Italians who had landed in

New York and wished to go to the cotton mills of Lowell or the shoe shops of Lynn, etc., and Italians who had landed in Boston and wished to go to New York, the news of these abandoned farms came to be noised about among the Italians and they began to take them up. The men would work in the nearest factory and the women and children cultivate the ground.

The Italian is a born irrigator, and now all along the New Haven road can be seen garden-like estates that were abandoned by their previous owners. The road was quick to see the trend of the Italians and is bent on encouraging it. It is probable that a combined agricultural and industrial population of Italians, Poles and Portuguese, aggregating millions in number, will be gained to the territory traversed by the road.

According to advices received in Tokio, 109 persons were killed and twenty-nine injured in the earthquake in the Southern part of the island of Formosa.

Take Hollister's Rocky Mountain Tea this month. Drives away spring tiredness, gives appetite and sleep, makes you well and keeps you well. Great family tonic. 35 cents. Tea or Tablets. J. Jas. Wood & Son.

# Personal!

I Am Sure That There is Something in This That Will Interest YOU.

A modern, up-to-date, strictly first class 8-room brick residence. One of the most delightful homes in the city. Will require no repairs or additions for the occupancy of the most fastidious.

A third street brick residence of 8 rooms, splendid cellar, and modern in all its appointments. In first class repair, with rear entrance to good stable.

A third street frame residence with large lot, in the aristocratic part of the city, which can be bought at a figure that will justify the purchase.

An 8-room frame dwelling located in Second street, Fifth Ward, with all the modern improvements and good sized lot and convenient in every particular. The one who purchases this will have an up-to-date residence.

A good two-story frame residence located in Forest avenue, in splendid neighborhood, between Commerce and Lexington streets. Price \$1,400.

L. B. Gray's two-story frame residence located in West Second street, with a lot 50 feet front extending back to the C. and O. Railway, at a very low figure.

A very desirable two-story brick residence in West Second street of 8 rooms and bath, with stable in the rear and alley entrance, at a reasonable price.

The Mary A. Styles residence, just East of the residence of Mike Brown, in the Sixth Ward. This is one of the best localities in the city. If you want a good home for a small price you cannot miss it on this.

A good two-story frame residence in Cottage street at the very low figure of \$550.

Some very desirable lots in Riverview Terrace, between the residences of Thomas A. Davis and J. C. Rains. Take a look at them; they are beautiful, and the price is remarkably cheap.

A house of 4 rooms in West Third street, which rents for \$5 per month. You can buy it for \$450, on easy payments.

A good brick residence in West Third street, in splendid state of repair. Price \$3,000.

If nothing in the above list suits you, I would suggest that you permit me to sell you a lot on Forest avenue, or in the Maysville Real Estate Company's Sub-division, just this side of the residence of Mrs. H. H. Collins. It is all the style now to own the house which you occupy. If you wish to work for the benefit of your family, and for the "Honor and Glory of Greater Maysville," and be thoroughly prepared to celebrate "Home-Coming Week" befitting your standing in our city, you should not fail to buy a home in order that you may be ready for that event. I will consider it a favor to talk with you with reference to any of the property mentioned above, or to have you make inquiry with reference to anything which you may wish to buy. If you have not the cash, I can arrange the payments to your satisfaction.

## JOHN DULEY.

As the result of an earthquake in Formosa last month 1,104 persons were killed, 695 injured and 1,200 houses demolished. The prosperous towns of Daliy, Raishiko and Shinko were completely destroyed. The damage is roughly estimated at \$46,000,000.

### BRACELETS .....

G. O. ASBURY, R. F. D. No. 1, Dover, Ky.

### APPRECIATED PERFORMANCE

Looked Like the Real Thing and the Company Had to Do It All Over.

The late Joseph Jefferson used to say that his career came very near being nipped in the bud in a small western town, relates Success Magazine. He at that time was a member of a small pioneer company which progressed by means of three "bull teams" from one mining camp to another. They were always heartily received by the miners and cowboys, who readily paid the five dollars in gold required to witness their performance. Mr. Jefferson was the traditional melodramatic villain, and in the third act was supposed to kidnap "the child." The supposed mother, hearing his cries, rushes upon the scene just as he is about to escape, and fires a fruitless shot from a revolver.

Upon this particular occasion all had gone well until this scene was reached, and the audience, many of whom had never before seen any kind of theatrical performance, sat as if spellbound. At the crack of the mother's revolver, however, the spell was rudely broken. "By heaven, she missed him!" a red-shirted miner in the front row shouted, drawing his own "six-shooter" and leaping to his feet. "Round to the back door and head him off 'fore he can git a hoss, boys!" he yelled, and following him, half the audience stampeded for the exit.

The excitement was finally allayed by the "mother" and the villain's appearing hand in hand before the curtain, and the manager's explanation of the situation. When the performance had been concluded, the audience insisted on paying another admission price and having an immediate repetition from beginning to end.

### RECESSION OF THE FALLS.

Rate at Which the Niagara Cataract Has Worn Its Way Backward.

The only reliable data that can form a basis for speculation as to the progress of Niagara Falls from Lake Ontario to the present site is found by comparing the two surveys that have been made of the falls, one in 1842 and the other in 1886, writes Archer Butler Hulbert, in Four-Track News. The first of these was a trigonometrical survey made by Dr. John Hall, nestor of the New York State geological survey. At the suggestion of Sir Charles Lyell, who visited the falls with him, monuments were erected at the points at which the angles were taken in order that some later surveyor would be able to find with accuracy the exact extent of the changes. The second survey was made in 1886 by R. S. Woodward, of the United

States geological survey, now director of the Carnegie institute at Washington. The result surprised the world. Woodward's survey showed that the falls had moved 220 feet since 1842; the rate at the center had been, therefore, five feet per annum; Woodward proved that the tremendous area of five acres of rock had been precipitated from the face of the fall in the half century.

## WANTED .....

50 Locust Posts 9 feet long; 50 Posts 10 feet. Must be straight and square 5 inches at the top. Give us lowest cash price delivered.

## Announcement

We would respectfully call the attention of the public to the fact that we have added a complete line of

## HARDWARE

To the stocks of Stoves and Tinware, in which we have been dealers for many years. We solicit an opportunity to show you and quote prices.

## McClanahan & Shea,

No. 41 West Second Street, Maysville, Ky.

## STREET PAVING ORDINANCE.

Be it ordained by the Board of Council of the City of Maysville, as follows:

Section 1. That the following streets and parts of streets in the City of Maysville, Kentucky, be improved by original construction, by paving and curbing the same, with vitrified brick and curbing and gutter suitable for the purpose, from the inner line of curbing on the outer sides of the pavements thereon for sidewalks, but so as to include the curbing on both sides of said streets and between the lines thereof, as follows:

Second street from the west margin of Wall street to the east margin of Market street.

Third street from the west margin of Wall street to the east margin of Bridge street.

Section 2. That the same be paved and curbed in accordance with the following plans and specifications:

### SPECIFICATIONS FOR STREET GRADING AND PAVING IN THE CITY OF MAYSVILLE, MASON COUNTY, KENTUCKY.

1. The work shall consist in the furnishing of all materials, labor, tools and machinery necessary to the proper prosecution and complete construction of a hard burned vitrified brick pavement, a curbstone and a proper drainage system on streets named herein. The work to include all grading, preparation of sub-grade and foundation, tiling, inlets and sewer connections, and all work of whatsoever kind necessary to complete this improvement, all as more fully specified below and shown in the plans for this work.

2. All work will be done under the direction and supervision of the Engineer and to the satisfaction of the Council or the Paving Committee; and the words Council and Engineer shall be held to mean the said Council or its Committee, and the Engineer or his duly authorized agent.

3. The word Contractor in these specifications shall be held to mean any contractor or firm of contractors, or any member of a firm contracting for any of this work, or his or their agent or agents, one whom shall be upon the work at all times during its progress.

4. The work will be stated out by the Engineer, and the Contractor shall carefully preserve all stakes or monuments of every kind.

5. The Engineer and Council shall have full power to condemn any work or material not in accordance with the specifications, and to require the Contractor to at once remove the same. The Contractor must also furnish at his own expense such labor as may be deemed necessary by the Engineer to assist in cutting and inspecting material. All refuse materials shall at once be removed from the street.

6. In all questions as to the meaning and intent of these specifications, the decision of the Engineer shall be final.

7. The Engineer and Council may, if they deem best, make alterations or modifications of the specifications or plans for this work. The price to be paid for this work under such altered or modified specifications to be agreed upon in writing and signed by the Contractor and some one authorized by the Council on behalf of the City of Maysville.

8. And it is expressly agreed that such alterations shall not annul or violate this contract; and the Contractor hereby agrees not to claim or bring suit for any damages, whether for loss of profits or otherwise, on account of not being allowed to do such work or furnish materials.

Whenever any additional work or change or modifications in the work contracted for is agreed upon as above, such additional work, alteration or modification shall be upon and subject to all the provisions of the original contract.

9. The Paving Committee and Engineer may suspend the work in certain places, or altogether, if in their opinion public needs require it; such suspension however shall not exceed one week at any one time, except that whenever in his opinion the weather is unsuitable he may cause the work to be suspended during such time as the weather may remain unsuitable. In case of any such suspension, the time for the completion of the work under this contract shall be extended by as many days as the same was suspended, but no allowance of any kind other than such extension of time will be made.

10. In case of any injunction or other process restraining the City from proceeding with the work, the contract may be suspended or abandoned by the Council. If the work is suspended the Contractor's time for completion shall be extended as many days as the same was suspended. If the contract is abandoned, payment for all work to such date of abandonment shall be made forthwith; and the said Contractor shall not hold the City of Maysville, Kentucky, liable for any damages whatsoever on account of any such suspension or abandonment.

11. The right to lay any water pipes, to construct any sewer or sewers, receiving basins, culverts or inlets, or to make house connections with sewers or water pipes, or to grant any such rights and privileges to others at any time prior to the completion of the pavement, is expressly reserved to the Council. In any such case the Contractor shall not be entitled to any damages either for the closing up of the street or for any delay caused thereby; but he shall be allowed for any work or material made necessary on his part, such sum (not exceeding contract rate) as may be agreed upon between him and the Engineer; and his time for completion shall be extended by as many days as he was delayed.

12. All materials delivered on the street shall be neatly and compactly piled so as not to impede travel on the sidewalks nor the use of fire plugs, nor damage any tree, awning or other improvement. All rubbish or refuse shall be immediately removed by the Contractor. In case of suspension of the work, the Contractor shall immediately collect and pile all materials as above specified.

13. All curbing, cross-walks, drain-tile or other material of whatever kind taken up by the Contractor, shall be considered the property of the City (except such materials as have been laid by the property holders, which shall belong to such owner); and the Contractor shall use care in handling and shall carefully pile same at such points as may be directed by the Engineer.

14. The work shall be begun at such point or points as the Council may designate; and not more than three adjoining squares in length may be torn up at one time, nor shall any square be blocked except, where the Contractor is actually

working. All bricks necessary to complete any square or section to be torn up at one time shall be on the ground before the work is commenced or satisfactory guarantee given that the material will be forthcoming and will cause no delay to the work. The Contractor will keep the excavation clear of all water at his own expense.

15. The Contractor shall erect strong barricades and place red lights at night whenever necessary, and hereby agree to hold the City harmless for any and all claims for damages resulting from any failure or neglect on the part of the Contractor, or his employees, to properly comply with the requirements of this section.

16. Each square as soon as the pavement is completed shall be thrown open to public use; but such opening and using shall not be considered as an acceptance of any part of the work.

17. If the Contractor fails to complete the work within the time named in the contract, he shall forfeit to the City of Maysville, Kentucky, the sum of five dollars per day by way of liquidated damages.

18. But if in the opinion of the Engineer and Paving Committee the work is not being prosecuted in such manner as to insure its completion in the time and in the manner herein described, then, in either case the Engineer shall notify the Contractor and his bondsmen by mail to their ordinary address of such failure; and the Paving Committee, after ten days from such notification, shall have the right to annul and determine the contract and to take possession of the work; and is hereby authorized to put on sufficient force of men and teams to insure its proper completion, or may relet the work. And in either case all cost made and expended shall be charged to said Contractor; and if the sum so charged shall exceed the amount due said Contractor under his contract, then he shall become liable to the City for any sum that the cost of doing said work shall exceed the sum due the Contractor upon the completion of the work as contracted, and be liable therefor on his contract as bond.

19. The Contractor shall, without additional compensation, make good any settlement or derangement of the roadway, foundation, curbs, sewers, inlets, manholes, gutters, or any part of the work done under this contract, and shall replace acceptably any soft or inferior bricks, which may be condemned by the Engineer within six months after the acceptance of the work. (See Section 2.)

20. All work shall be paid for at the contract prices, unless by agreement between the Contractor and Council, and no extra or customary measurements will be allowed in measuring the work; only the actual length, area, solid contents or number will be considered.

21. Estimates will be made on the Saturday preceding the first regular monthly meeting of the Council, and the amount of work done, less ten per cent., will be certified to the Council for payment, but such payment shall not be construed as an acceptance of any part of the work.

22. Five (5) per cent. of the total cost of the improvement will be retained out of the final estimate of the work for a period of twelve months to secure the repairs required made by the Contractor. And should the Contractor neglect or refuse to make any needed repairs for five days after being notified to make such necessary repairs by the Engineer or Paving Committee, said Engineer or Committee may cause such repairs to be made and pay for the same out of the money hereby retained. At the expiration of twelve months from the acceptance of the work, and the improvement being in all its parts in such condition as the Council shall approve, all money hereby retained and not expended as above stipulated, shall be paid to the Contractor and he shall be released from further care of the work.

23. The work to be begun within ten days after the signing of the contracts, and to be prosecuted so as to secure its completion in 120 days from such date.

24. The Contractor shall satisfy the Council by proper receipts from all parties furnishing material and performing labor, showing that they have been paid before he shall be entitled to receive contract price in full.

25. The Contractor hereby further agrees that he will not assign or sublet this work without the consent of the Engineer and Council.

26. The Contractor assumes all risks of variance in any computations or statements of quantities or amount mentioned herewith or of the plans.

27. Any loss or damage arising out of the nature of the work to be done under these specifications, or from any unforeseen obstruction or difficulties, legal or otherwise, which may be encountered in the prosecution of the work, or from the action of the elements, shall be sustained by the Contractor.

28. The improvement will be drained to the ditches, gutters and sewers, inlets and lines of drain tile, and also by laid tile laid below the sub-grade. The inlets will be approved pattern, substantially set in brick work, and will be connected with the manholes by lines of ten or twelve-inch sewer pipe with increasers, elbows, P traps, or other necessary shapes. The drain or farmers tile shall be four inches in diameter, hard burned, laid true to line and grade, not less than eighteen inches below sub-grade, and shall be connected with tile drainage system with one joint or vitrified pipe, as directed by the Engineer, after which the trench will be refilled with crushed limestone, and tamped thoroughly, as specified in section 35. Drain tile shall be used only at such places as the Engineer shall direct.

29. Manholes will be built where shown on the plans. They will be made of good hard brick laid in cement mortar; walls will be nine inches thick as shown on plan, and the foundation will extend four inches below the grade line of the sewers. Foundation will be made of hard burned brick laid in cement mortar and grouted, or of concrete, as deemed best. Header courses shall be laid every fifth course. Care will be taken to have manholes and sewers properly connected, as shown on plan, so as to hinder the flow the least possible. They shall be nicely pointed inside and plastered outside with a half-inch thickness of good cement mortar. Five-eight-inch round wrought iron steps of ten-inch tread, one inch clinck back of wall and fifteen inches apart to be built in all manholes. Top will be finished with cast iron rings weighing not less than two hundred and forty pounds and covers not less than one hundred and twenty pounds.

30. All cement mortar, if not otherwise specified, shall be made of approved qual-

ity clean American Portland Cement and fresh sharp sand in equal parts, determined by measure. The cement and sand shall be thoroughly mixed dry, and water added to form a paste of proper consistency. All mortar shall be fresh for the work in hand. No mortar that has begun to set shall be used.

31. None but the best quality of sound well shaped bricks, burned hard entirely through, shall be used in setting inlets or in any other brick work, except that forty per cent. good bats may be used in manholes. All bricks must be wetted by immersion immediately before being laid.

32. All concrete found necessary shall be made of one measure of cement, two measures sand and five measures crushed limestone, to be thoroughly shoveled mixed dry, turned over twice on mixing platform, then water enough added to moisten the same, to be piled in cone-shaped pile and again shoveled turned; all to be done under the instruction and to the satisfaction of the Engineer.

33. The excavations for drains, inlets, manholes and other fixtures shall be so made as to have six inches of clear space outside of the pipe or other structure, and to require grade and depth. All bracing, sheathing or shoring required must be done by the Contractor.

34. In refilling trenches, or about any structure, the earth or other filling material to be so placed as not to disturb the work in any way, and shall be deposited in layers not exceeding eight inches in thickness, and thoroughly rammed until the filled earth is as compact and solid as the original earth. There shall be at least two men tamping with heavy rammers for each shoveler.

35. The Contractor will remove all old or condemned material, rubbish, trees, logs, water, filth or refuse, posts, horse blocks, crossings and any and all obstructions of whatsoever kind that may be encountered in the execution of this work at his own expense, and without any extra charge whatever, and shall deposit same as directed by the Engineer and in accordance with Section 13.

36-37. The earth foundation or sub-grade will be brought to an even surface parallel with the grade proposed for the pavement by making the necessary excavation or embankment. The stone, cinder, gravel or other suitable material will be carefully removed so as to keep it free from clay, dirt or other rubbish, and deposited and leveled at such points and in such manner as the Engineer and Council shall direct. All excavated material unfit for foundation will be placed in low ground, alleys, lots or wherever the Engineer and Council shall direct. Material to be properly leveled as dumped. When lots are filled, those assessed for cost of the improvement to have the preference. No extra haul allowed under three-quarters of a mile. Soft or spongy earth or other material not affording a firm foundation will be removed and the space refilled with gravel or broken stone and solidified by ramming or rolling. This sub-grade shall be compacted by thoroughly rolling with a roller weighing not less than eight tons; any portion of the sub-grade not accessible to the roller shall be thoroughly compacted by hand ramming, all to the entire satisfaction of the Engineer. Particular care will be observed in the preparation of the sub-grade. When the rolling and ramming shall have been done the surface of the sub-grade shall be true to the grade and crown, and ten inches plus the depth of the brick to be used below the proposed finished surface of the pavement. Careless or unnecessary injury to pipes, drains or fixtures of any kind will be repaired at the expense of the Contractor and the cost deducted from any moneys due him.

38. The combined curb and gutter shall be constructed upon an eight (8) inch foundation of broken stone, gravel or boiler cinders, and shall consist of a curb six (6) inches wide; at summits, street corners and entrances the height will be fixed as the Engineer directs. The gutter will be sixteen (16) inches wide and six (6) inches deep, so constructed that the curb and gutter shall be monolithic. Stone, gravel or boiler cinders for foundations shall be broken to pass in every way a three (3) inch ring, and must be of approved quality, free from dust and dirt or other foreign matter. Stone for concrete shall be a good durable limestone, furnace slag or gravel of approved quality, of a size to pass in every way a one and one-half (1 1/2) inch ring; and must be clean and free from dust, dirt or other objectionable matter.

Sand for concrete shall be the Ohio River or pit sand, clean, free from clay and loam or other objectionable matter. For finishing coat sand must be clean sand, crushed quartz, granite or sandstone of approved quality. The cement shall be of the very best quality of American Portland Cement, equal to the Atlas and subject to the approval of the Engineer. The water shall be fresh and clean, free from earth, dirt or sewerage. The sub-grade shall be excavated six (6) inches beyond each side of the finished curb and gutter to the proper depth and must be evenly and smoothly dressed with a rise toward the street center on one (1) inch in sixteen (16) inches. Any soft or spongy places must be excavated and filled with a suitable material and well rammed. Directly under the curb and in an especially excavated trench three (3) inches below sub-grade will be laid three (3) inch laid tile. The tile must be straight and true in diameter, neatly laid to line and grade in a workmanlike manner so as to insure thorough drainage. The tile will be connected to inlet or catch basin. Upon the sub-grade thus prepared will be laid the stone, gravel or boiler cinder eight (8) inches deep, which shall be fluted with water and thoroughly tamped. The concrete shall consist of one (1) part of volume of the above mentioned Portland cement, two (2) parts of sand, and five parts broken limestone, gravel or slag. The cement and sand in the specified proportion will be thoroughly mixed dry on a tight board platform or in a box, until no streaks of cement or sand are visible. The proper quantity of limestone, gravel or slag will then be added, and the whole turned with shovels while the water is being applied by sprinkling until every piece of stone or pebble is completely covered with a coating of mortar. The surface against which the concrete is to be laid shall be thoroughly cleaned and dampened by sprinkling with water just previous to placing the concrete. The concrete shall be evenly spread upon the foundation as soon as spread in layers of such depth, that after being thoroughly compacted with rammers of an approved pattern, it shall not be in any place less than four and one-half (4 1/2) inches thick, and the upper surface parallel with the surface of the completed gutter. The concrete for the

curb shall be laid in a like manner four and one-half (4 1/2) inches thick and with in one and one-half (1 1/2) inches of the top and face of curb line. The finishing coat shall be put on the gutter before the curb is laid up, the space for the finishing coat on face of curb shall be finished by a board one and one-half (1 1/2) inches thick, which shall be removed when ready to apply the finishing coat, and concrete and finishing coat of curb tamped together.

The sides of the batches shall not be larger than is required for immediate use, and no retempering of concrete or mortar will be permitted. Any concrete or mortar that has been mixed more than one-half (1/2) hour will be rejected. All volume shall be measured (not estimated) for each batch of concrete and mortar.

The finishing coat shall be composed of one (1) volume of the above mentioned Portland cement and one and one-half (1 1/2) volume of the aforementioned sand, crushed quartz, granite or limestone, thoroughly mixed dry and then made into a mortar by turning with shovels as water is added by sprinkling, until a homogeneous mass is produced. The mortar while fresh will be spread upon the concrete base before the latter has reached its first set, in such quantities that after being thoroughly manipulated and spread over the concrete it will make a layer of one and one-half (1 1/2) inches thick, conforming to the required grade and cross section.

The curb and gutter will be constructed in blocks approximating six (6) feet in length and cut entirely through at each joint, the joints being filled with dry sand. The curb and gutter will be kept moist by sprinkling, and projected from the elements and travel until it is set.

Entrances from adjoining streets and alleys, or to public and private residences, will be built as directed by the Engineer. Circular openings in the curb for down spouts and drainage will be directed by the Engineer. The name or number of each cross walk will be die sunk with three-inch letters sunk 3/8 inches deep.

The complete curb and gutter shall be of the design on file in the Engineer's office, with angles on the face of curb rounded to a radius of one (1) to one and one-half (1 1/2) inches, the gutter having a slope of one (1) inch in sixteen (16) inches, unless otherwise directed by the Engineer. Concrete or mortar that fails to set or show a proper bond after, in the opinion of the Engineer, having been allowed a sufficient time, shall be taken up and replaced with new concrete or mortar of proper quality by the Contractor.

The space back of the curb to within four (4) inches of the top of the curb must be filled with broken stone, gravel or cinder.

Where walks join the curb they must be connected to it in a neat, substantial manner, the contractor furnishing new material where necessary. Where walks do not join curb, the ground shall be neatly graded and sloped from the walk to the curb. All surplus or left over material, and all debris incident to construction of the curb and gutter shall be removed and disposed of by the Contractor.

If at any time during the guarantee period any cracks, scales or other defects appear in the curb and gutter, due to the faulty material or workmanship, the block or section in which such defect appears shall be taken up and replaced with new material according to these specifications by the Contractor.

39. Upon the sub-grade prepared in accordance with section 37 for grading, will be laid a concrete foundation six (6) inches thick after being thoroughly compacted.

The concrete shall be composed of one part, by bulk, of an approved Portland cement, and six parts crushed limestone.

The Contractor may clean and crush the limestone, taken from the present road surface, for making the concrete, but the material must be clean and suitable for the purpose or the same will be rejected.

The proportion of materials for concrete must be determined by actual measurement as the same is mixed.

The material must be turned twice while dry and twice wet, and must be raked constantly as it is turned, if made by hand.

The use of a suitable concrete mixer will be preferred for this work. The concrete thus prepared must have a consistency that when rammed in a mass it must not shake like jelly, but will when struck compact within the area of the face of hammer without displacing the material laterally. The concrete thus prepared must be immediately placed in the work and thoroughly compacted by ramming until free mortar appears upon the surface.

The whole operation of mixing and laying each batch of concrete shall be performed in a prompt and skillful manner and must be entirely completed before the cement has begun to set will be rejected.

The upper surface of the concrete must be made to exactly conform to the cross section of the finished pavement and shall be no more than six (6) nor less than five (5) inches below it. The concrete must be made perfectly smooth by brushing with wire brooms.

As soon as laid, and before the top becomes dry, the entire surface of the foundation must be covered with one (1) inch of clean sand, to protect it from the sun and wind, and if required shall be kept wet until thoroughly set.

No driving will be allowed on the concrete until it has set, and it must be allowed to set for four (4) days before the pavement is laid thereon.

Any damage done to the foundation by passing over it will be repaired by the Contractor without extra pay.

The material used for concrete must be crushed limestone, broken and selected so that none of the particles shall be larger than cubes of 2 1/2 inches, and there shall be enough fine limestone and sand to fill all voids in the concrete when settled in place.

40. The foundation thus prepared shall be covered with two inches of clean sharp sand and brought to a proper crown by the use of a scraper or template of such design and construction as the Engineer may approve.

41. Upon the foundation so prepared is to be set a single layer of bricks or blocks, laid on edge end, and across the street at right angles to the curbs, perpendicular to the grade of the street, and kept in even straight lines of courses except at street intersections, where the courses shall be at such angles as the Engineer may direct. None but whole bricks or blocks can be used, except in starting and closing courses at the curbs

two pieces for each course may be used. Before the closure is made each single course shall be pressed together as compactly as possible with proper lever applied at the curb end of the course which shall then be keyed in place with a close, tight fitting brick, all faces of which shall be cut at right angles to its top and sides. The joints shall be broken by a lap of not less than three (3) inches. Every four or five courses of bricks or blocks must be compacted and courses straightened by blows of a sledge hammer on a wooden bar placed against the sides of bricks in last course laid, or by such means as the Engineer may approve.

At the beginning and termination of the improvement, and at the roadways of all intersected streets or alleys, a curbstone not less than four inches thick and 12 inches deep, and in sections not less than 3 feet long, shall be set in a trench sufficiently wide to allow 3 inches crushed limestone, cinder, sand or gravel under, and on each side of it.

This edging must be dressed and jointed, and fitted closely against the pavement, and securely backed up so as to hold it firmly in place. This will be made of stone, same as provided for stone curb.

42. The bricks for this work must be uniform in quality, of the best materials, and made in the best manner, made and burned especially for street paving. The structure of each brick shall be uniform throughout, free from laminations, and shall stand all such reasonable tests as to durability and fitness as apply to this paving material. Contractors will submit five or more specimen bricks with their bids, indicating the kind the bidder proposes using on the work, and shall be accompanied by a statement from the manufacturer of same to the effect that bricks equal in every way and respect to the said specimens, and sufficient in quantity to complete the work in the time specified, will be furnished to the bidder if the contract is awarded to him. The dimensions of brick must be the same throughout the work.

The standard size may be not less than eight nor more than ten inches long; not less than four nor more than five inches deep; not less than two and one-half inches thick. They shall be true in form and rectangular in shape, except that the edges shall be rounded from one-quarter (1/4) to three-eighths (3/8) of an inch. The structure and texture of each brick shall be uniform throughout, and shall be so burned and annealed as to secure the maximum hardness and toughness.

Bricks that are brittle will be rejected; they must be vitrified. By vitrified is meant a perfect blending of the constituents in burning. These quality requirements, compactness, uniformity of texture, hardness, toughness, vitrification, etc., must extend uniformly through the whole interior of each brick, and when broken the bricks shall show no variation in structure or indications of lamination. Any cracks from drying, firing or other cause will be sufficient reason for rejection. Any bricks showing a water absorption exceeding three per cent. of their weight dry will be rejected. In this test bricks will be broken across the middle, thoroughly dried and immersed in water for seventy-two hours. All brick used in the pavement shall be equal in every respect to the specimens submitted with proposals. No brick known to have failed for any cause when laid in any other city will be accepted for this work.

43. The brick when set shall be thoroughly rammed two or more times as the Engineer shall direct. The ramming to be done with a paver's rammer weighing not less than twenty-five pounds either directly upon the bricks or under a flatter, as the Engineer shall direct. The ramming must not come nearer than ten (10) feet to the unfinished edge of the pavement, or such portions of the pavement as can be rolled will be thoroughly rolled with a roller weighing eight tons. When the bricks are thoroughly bedded, the surface of the pavement must be true for grade and crown.

The interstices of the brick shall be completely filled with "Pioneer" Asphalt Filler, produced by the American Asphalt and Rubber Company, of Chicago, or equal thereto; the material shall be not less than 95.5 per cent. of pure asphaltic bitumen, composed of not less than 63.3 per cent. petroleum and 31.2 per cent. asphaltene (each having a specific gravity of not less than 0.90 and 1.13 respectively). It shall not contain any coal-tar products. The specific gravity of the Filler-compound shall be not less than .99; the melting point shall be not less than 210 degrees F., or by capillary tube tests, it shall not commence to melt below 156 degrees F. nor "run" below 215 degrees F. The Filler-compound to weigh not more than 7 1/2 to 8 pounds to the gallon and shall produce not less than 250 gallons to the ton; it shall remain ductile at all temperatures, shall be an absolute waterproofing; it shall firmly adhere to the brick and yet be pliable rather than rigid, thus proving for expansion and contraction and traffic conditions.

STREET RAILWAY.

The street railway track shall be composed of seven inch "T" rails, on the best quality of sawed white oak ties, six inches deep, seven inches wide and seven feet long. The sub-grade shall be excavated to a depth of nineteen (19) inches. The ties to be spaced two and one-half (2 1/2) feet center to center. The ties shall rest on a bed of concrete six inches thick and to be filled between and over and at the ends with concrete as shown on plan in Engineer's office. The concrete shall be of the same quality as for paving foundation. The price in the proposal shall cover excavating foundation, blocking up track, putting in concrete and completing the paving between tracks and one foot outside of each rail. The Street Railway Company to furnish rails, connection, spikes and ties, and lay ties and rail.

INSTRUCTION TO BIDDERS.

1. All bids must be made on the forms furnished by the Engineer. Each item must be bid upon. The bid must be sealed and directed to the Pacing Committee in care of the Engineer.

2. All bids must be accompanied by a certificate of deposit for \$500, payable to the Treasurer of Maysville on demand, and must not contain any endorsement thereon other than the name of the payee. Contractors having certified checks must exchange same for certificate of deposits as specified above. The certificate of deposit of the three lowest bidders will be held until contract and bond are executed and accepted by the Council. All other certificates will be returned immediately after the bids

have been computed, and the certificates of the three lowest bidders will be returned as soon as bond is executed.

3. The bond required of the successful bidder shall be twenty-five per cent. of the estimated cost of the improvement, and must be executed by an Indemnity Bonding Company, satisfactory to the Council.

4. The City of Maysville will consider it a reason for the rejection of bids, or bid, if any Contractor has failed in any other town to execute contract after work has been awarded to him, or if he has failed in the execution of any contract, or has a reputation of being engaged in litigation, or if his work has proven defective in any other city.

5. The quantities which will be exhibited at the office of the Engineer for the purpose of calculation and tabulation of bids to ascertain who has the lowest bid, will have no bearing, whatever, upon the final estimates.

6. The City specially reserve the right to reject bids or to take other than the lowest, if they esteem the same to be to the best interest of the city.

PROPOSAL.  
Maysville, Ky. Street Construction.  
Maysville, Ky. .... 1906.  
To the City of Maysville, Ky.

The undersigned, having carefully examined the plans, specifications and profiles on file in the office of the Mayor and City Clerk, for the original construction of Second street, from the west side of Wall street to the east side of Bridge street, and Third street from the west side of Wall street to the east side of the material in every respect equal to the samples filed herewith; and to do all the work necessary for the completion of this street construction within 120 days after signing of contract, and in strict accordance with the specifications attached hereto under the direction of the Paving Committee and their Engineer, at the following rates, viz:

Prices given for paving include all excavations, ballast and sand cushion.

4 inch Agricultural Tile, per lin. ft., laid complete	.....		
3 inch Agricultural Tile, per lin. ft., laid complete	.....		
Extra limestone filling (estimated) per cubic yard	.....		
Percentage above actual cost for unspecified work	.....		

Note: Bidders.

This proposal must be accompanied by a Demand Certificate of Deposit of \$500 in a Bank doing business in Mason County, Kentucky.

Section 3. The construction of each of said streets, except as hereafter provided, shall be at the exclusive cost of the owner or owners of lots and parts of lots of land fronting or abutting or bordering thereon, which cost shall be apportioned by the Board of Council to said lots according to the number of front feet thereof abutting on said streets respectively.

The cost of paving the street intersections from curb to curb shall be borne by the City of Maysville and paid upon order of the Council and out of the levy of the year current with the completion of such work.

Section 4. That the accepted bidder shall execute bond to the City of Maysville with good and sufficient security, to be approved by the Board of Council of said city, for the faithful performance of his contract, and the Contractor shall within ten days begin his work under said contract, and shall complete the same without delay.

Section 5. That, when the work is completed in accordance with the contract, the work shall be received by the said City Council upon a certificate from the City Engineer, stating that the work has been done according to contract, and the said City Council shall order payment for the same made to the Contractor by issuing of an order upon the City Treasurer to pay same in full out of the "Street Improvement Fund."

Section 6. That, within thirty days after the signing of the contract by the Contractor for the original construction of the aforesaid street as herein provided, the Mayor of the City of Maysville is hereby authorized, empowered and directed to issue the bonds of the City of Maysville, in such sums as the Council may order, not exceeding the sum of the contract price for work, and all expenses attending the completion of the said work, including the expenses attending an issue of said bonds, which bonds may be redeemable by the city as follows, to-wit:

One-third thereof at the end of three years from their date; one-third at the end of seven years from their date; and one-third thereof on the day before the expiration of ten years from their date, and said bonds shall bear interest from date thereof until paid at the rate of six per cent. per annum, payable annually, and the same and all interest thereon shall be payable at the Bank of Maysville, Maysville, Kentucky.

Said bonds when issued shall be signed by the Mayor and Clerk of the Council with municipal seal attached and shall be sold and disposed of by the Mayor, City Clerk and Treasurer, then in office for the most advantageous price, in no event, however, to be less than par, with accrued interest at the time of sale.

The bonds shall be in form and substance as hereinafter prescribed, and numbered consecutively from No. 1 to the number required, and shall be in denominations of five hundred dollars (\$500) each, except that one may be for a smaller amount than said sum to cover any remaining fractional part of five hundred dollars (\$500) said work may cost, with appropriate interest, coupons attached. They shall bear date the 1st day of July, 1906, and shall be left in the hands of the Treasurer until negotiated.

## Maysville Weather.

What May Be Expected Here During the Next Thirty-six Hours.

### THE LEDGER CODE

White streamer—FAIR;  
Blue—RAIN or SNOW;  
Black ABOVE—TWO WARMER GROW.  
Black BELOW—COLDER 'TILL BE;  
If Black's not shown no change will be.  
The above forecasts are made for a period of thirty-six hours, ending at 6 o'clock tomorrow evening.

Rev. G. W. Bunton of the Third Street M.E. Church will conduct the prayer meeting at the Central Presbyterian Church tonight.

There was an enthusiastic meeting last night of the Directors of the Board of Trade—the largest representation for many moons past. Committees were appointed to arrange for Home-Coming Week, and the Directors don't intend to cease efforts until every able-bodied "Booster" in Maysville is a member of the Board. Now is the time to join—and to Boost.

A strange colored man drew suspicion upon himself in Front street yesterday as being the fiend who murdered Engineer Fleming near Lantonia the other day. The Police being informed of his presence started on his trail, but the bird had flown, headed for Manchester. Chief Ort 'phoned the Marshal at that point instructions, and when he struck the town he was immediately taken in charge. Chief Ort left for Manchester this morning to take a look at the fellow. His description fills the bill to the dot.

## Personal

Mr. E. N. Forsythe left for Chicago yesterday.

Mrs. D. Sam White is visiting relatives at Pekin, Ill.

Miss Mary Finch of Helena was shopping in the city yesterday.

Mrs. John V. Lytle is the guest of Mr. and Mrs. Omar Lytle at Paris.

Mr. John T. Rose of Mayslick was a caller on THE LEDGER yesterday.

Miss Ethel Owens has returned from a visit to her father, Dr. C. C. Owens, at Covington.

Miss Edith Means returned yesterday to her home at Cincinnati, after a visit to relatives here.

Mr. J. D. Peed of Mayslick visited Mr. J. J. Peed and family of Millersburg Saturday and Sunday.

Mr. and Mrs. J. Will Forsythe of Lexington will Sunday with Mr. and Mrs. E. N. Forsythe of Market street.

Miss Mary Breunen of Cincinnati, who has been visiting her grandmother, Mrs. John Moore, will leave today for home.

Mrs. Martha Vimont has returned to her home at Millersburg, after a visit to her daughter, Mrs. W. A. Manning of Forest avenue.

Little Miss Eleanor Lytle has returned to her home at Paris after an extended visit to her grandparents, Mr. and Mrs. John V. Lytle.

Mrs. James R. Emmett of Waverly, O., is visiting her parents, Mr. and Mrs. J. W. Wells of West Second street.

Mrs. Frank A. Mannen of St. Paul, Minn., will arrive here about the 1st of May on a visit to Mrs. Clarence L. Wood of West Front street.

Mr. and Mrs. P. T. Hedges of Indiana were registered at the Kentucky Hotel last night. It was their first visit to Kentucky since leaving here forty years ago.

Mr. C. W. Gurney, Postal Clerk on the Cincinnati Southern, has returned to his post of duty after spending several days here visiting friends and his best girl.

Mrs. Bertie Descaunets, nee Huron, and son, Louis, have returned to her home at Indianapolis after a delightful visit to her parents, Mr. and Mrs. Thomas Huron of Charleston Bottom.

The Aberdeen Hotel property has been sold to parties from Mayslick.

The Twenty-third Royal Welsh Fusiliers were nicknamed the "Nanny Goats" because from time immemorial the corps has possessed one of these animals as a regimental pet.

## Latest News

Governor Pattison of Ohio continues to improve slowly.

Maxim Gorky has disappeared from New York, after being turned away from a number of hotels, and is believed to have gone to Chicago.

The Court of Common Pleas at Cincinnati has decided that the whole Drake Committee business is invalid, from the Senate resolution authorizing the Committee to the act of the Committee in arresting Cashier Davis of the First National Bank who refused to testify before it.

The Supreme Court of the United States has rendered a decision that a state cannot grant a divorce when but one party to the marriage is a resident in the jurisdiction of the state. It affects thousands of couples, and it is estimated that the future affairs of 40,000 children are involved.

Four men have been arrested at Springfield, Mo., charged with being leaders in the mob that broke into the County Jail last Saturday night and lynched three Negroes. The arrival of the state militia has had the effect of calming the popular excitement. A Special Grand Jury will enter upon the investigation of the lynching. An Assistant Attorney General sent by Governor Folk will aid the Springfield officials in the prosecution.

The woes of Zion are at an end. By the terms of the settlement Dowie will have the title of Zion again for a period of two minutes. He then must sign away his rights to a Board of Church Representatives. He will receive a low rate of interest upon the \$1,000,000 interest he possesses in Zion until such time as the property can be converted into cash. He will be allowed to come and go in Zion as he wishes, as long as he does not interfere with the present administration.

## CONSTIPATION

"For over nine years I suffered with chronic constipation and during this time I had to take an injection of warm water once every 24 hours before I could have an action on my bowels. Happily I tried Cascarets, and today I am a well man. During the nine years before I used Cascarets I suffered untold misery with internal piles. Thanks to you I am free from all that this morning. You can use this in behalf of suffering humanity."

### HERE AT HOME.

Maysville Citizens Gladly Testify and Confidently Recommend Doan's Kidney Pills.

It is testimony like the following that has placed "the old Quaker Remedy" so far above competitors. When people right here at home raise their voice in praise there is no room left for doubt. Read the public statement of a Maysville citizen:

Henry Bertram, shoemaker, of 27 East Third street, Maysville, Ky., says:

"I believe everybody in Maysville has read in the papers the testimony I gave in March, 1900, about Doan's Kidney Pills, for I have been asked again and again by residents of this town if that statement were true. For the benefit of persons who may now be suffering from forms of kidney trouble I repeat my testimony. Before I got Doan's Kidney Pills at J. James Wood & Son's Drugstore I had suffered for some time with backache and a tired feeling and having aching in and about the kidneys. Being a maker, I thought my trouble was caused by my work, for every time I took cold it settled in my back, but Doan's Kidney Pills quickly rid me of the trouble and never, from that time to this, have I had any cause to complain of my back or kidneys. Doan's Kidney Pills perform exactly what they promise, and to be honest with you, I will say that in my opinion there is no remedy for kidney disorders equal to Doan's Kidney Pills."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take a substitute.

# WE THANK EVERY ONE Of Our Many Hundred Customers.....

For the largest Easter trade we ever had. Please call and see our new spring stock. We have some of the best Shoes that can be made. It is an established fact that Dan Cohen sells for less profit than any shoe store in this country. Very respectfully,

# W. H. MEANS, - - - MANAGER.
